

# Wi[box]

Designed for vertical industry solutions, Wibox is your key to enterprise mobility. Made up of customizable business rules, Wibox allows players in the enforcement, logistics, utilities, telecommunications and financial industries to keep moving. With a modular software architecture and complete device management, Wibox lets you deploy your business applications with existing enterprise systems quickly and seamlessly. Giving you increased productivity, efficiency and total flexibility with visual tools to define, deploy and manage critical business processes. With connectivity options that include GSM, GPRS, 3G, WiFi and WiMax, Wibox keeps your business moving.

**Industry Applications**  
Enforcement  
Utilities  
Logistics  
Telecommunications  
Banking

#### Wireless connectivity

Seamless connectivity with GSM, GPRS, EDGE, 3G, SMS, WiMax and WiFi.

#### Multiple available adapters

Allow you to connect to a host or legacy system including Mainframe, SAP, Oracle, DB2, and SQL.

#### Customizable

Use Tricubes applications or build your own.

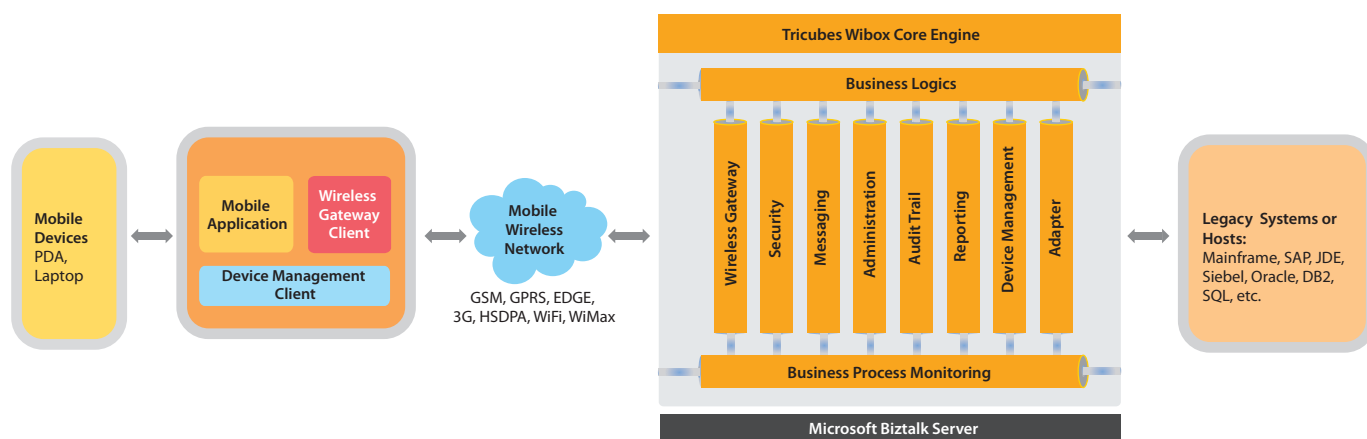

#### Device management

Keeps you in control wherever you are. Supports device tracking with monitoring and remote upgrade over the air.

#### Security

Ensures confidentiality, integrity, and availability of data by utilizing encryption, authentication and audit trail.
